“I LOVE RAIN ACTIVITY”

Circular No. LP/2024-25/12

Date: 23.07.2024

Dear Parent,

Greetings from Learning Plus!!

Rainy season is the much-awaited season for the kids. Children always have a fun time during Rain. Their enjoyment becomes infinite if Rainy Day is celebrated on their school premises. With this thought, like every Monsoon Season, **Learning Plus** has again come up with “**I LOVE RAIN**” activity which will be conducted on **26.07.2024 i.e., Friday**. The kids will experience *an artificial light rain shower* and rejuvenate themselves with their teachers and friends. To gather pleasant memories, kindly send your ward in **casual and colourful clothes** with **floaters**. Also, the children must bring a **well-labelled small colourful umbrella and a raincoat**. The kids will be acquainted with the various things we use during the rainy season with *hands-on experience and learning methods*. They will also learn the quality of ownership and belongingness. To add flavour, the students may bring **healthy party snacks** to relish the activity.

Looking forward to 100% participation.
